

LANDSCAPE LABOR TRAINING WORKSHOP

**WHAT: SECOND ANNUAL REGION IV TRAINING
WORKSHOP**

WHERE: DALLAS ARBORETUM

WHEN: FRIDAY, FEBRUARY 10, 2012

TIME: 7:00AM – 3:30PM

RSVP: TNLAR4@GMAIL.COM

SAVE THE DATE!

Based on last year's overwhelming success and positive feedback Region IV is hosting its Second Annual Landscape Labor Training Workshop. Certified TNLA members will receive seven (7) CEU's for attendance. Lunch will be served. Multiple sessions will be held in English and Spanish.

All new and improved the curriculums for each of the breakout session!

Insects and Diseases

Dr. Carlos Bogan, Assoc. Professor and Extension Specialist TAMU

Insects encountered in landscaping will be covered in this presentation. Beetles, caterpillars, slugs and grasshoppers just to name a few will be covered. Identification of the pest as well as damage caused by the pest will be covered in detail in this presentation.

Plant Identification

Albert Buitron and Heath Grant, Southwest Wholesale Nursery

All new updated list of landscape drought tolerant shrubs and trees, size and growing characteristics, and proper pruning and maintenance of the listed plants. By the end of the class the attendees will have a better working knowledge of many common plants that will help them in an everyday working environment.

Best Landscape Practices

Robert Kapitan, Valley Crest

The Best Landscape Practices session will focus on landscape maintenance work. We will cover each step from the mowing, trimming shrubs level, what to do with a crepe myrtle, minor tree trimming. The three main take-aways for attendees will be safety, quality, and productivity.

Landscape Safety

Luis Serna, Texas Land Care, Inc.

A safety class with the focus on landscape and equipment safety. Proper lifting, mowing dangers in traffic, ladders, snakes, and many more safety issues landscape install and maintenance crew face working in outdoor environments.
